

SMOKE FREE

MULTI-UNIT HOUSING NORTH-CAROLINA

A Guide for Residents and Their Families

Why Our Property is Smoke-Free

Healthier Living For Everyone

Secondhand smoke may cause asthma attacks, cancer and heart disease. It is very harmful to pregnant women, children and older adults. Secondhand smoke can easily move between apartments. Going smoke-free indoors protects the health of all residents¹.

Safer Living For Everyone

Smoking is the top cause of death from fires in homes. Smoke-free housing lowers the threat of fires caused by smoking. Smoke-free housing protects residents from fires caused by smoking.

Thirdhand Smoke

Thirdhand smoke is the nicotine and other chemicals left by tobacco smoke in apartments on things like carpets, walls and blinds. It remains in the apartment long after smoking has stopped.

How This Affects Your Lease:

- ◆ The smoke-free policy will be a part of your lease.
- ◆ The policy will describe all the details of being smoke-free.
- ◆ You will be able to keep living in your home as long as you follow the policy.
- ◆ You will be asked to sign a lease addendum agreeing to follow this new policy on *(insert date)*.
- ◆ The policy changes start on *(insert date)*
- ◆ These changes will apply to all residents, their guests and anyone who works at the property.

"I've had 4 heart attacks. My doctors have been talking to me about quitting smoking. The smoke-free policy has been the push to get me started."
